

FORM FOR EMPLOYERS

INSTITUTION: AGH-University of Science and Technology

CITY: Kraków

POSITION : Adjunct

DISCIPLINE: Chemistry

POSTED

EXPIRES ... 30.12.2016

WEBSITE: www.uci.agh.edu.pl/konkursy

KEY WORDS: organic chemistry, macromolecular compounds, organosilicon compounds, polymer-derived ceramics

DESCRIPTION (field, expectations, comments):

The candidate is expected to possess a PhD degree in chemistry and meet the following requirements:

- scientific achievements in the field of polymer chemistry, including organosilicon polymers documented by articles published in international journals.
- experience in the field of organosilicon polymers synthesis and their transformation to ceramic materials
- work experience at least 5 years
- domestic or international internship (at least 1 month)
- completed pedagogical training and teaching experience, especially in organic chemistry (seminars and laboratory courses).
- active participation in academic life, expressed by the presentation of research results at scientific conferences
- knowledge of English language at B2 level
- observance of generally accepted ethical standards
