

FORM FOR EMPLOYERS

INSTITUTION Academic Centre for Materials and Nanotechnology AGH

CITY Kraków

POSITION Assistant Professor

DISCIPLINE Materials Engineering, Metallurgy

POSTED

EXPIRES 31.01.2017

WEBSITE

KEY WORDS electrochemistry, electrocatalysis, thin films, nanomaterials,
electrochemical measurements

DESCRIPTION (field, expectations, comments):

- PhD in technical sciences,
- internship in domestic or foreign scientific institution (at least 1 months),
- fluency in English (B2 level or equivalent certificate),
- academic achievements in the field of electrochemistry documented by scientific publications in peer-reviewed international indexed journals,
- experience in application and management of research projects,
- good knowledge of theory and practice of electrochemical measurements,
- active participation in conferences and symposiums,
- basic knowledge of photoelectrochemical techniques and photoelectrochemical instrumentation, and physical chemistry of metal-semiconductor composites.
