

# **Chemical and Biological Systems Simulation Lab**

**is looking for candidates to work in a NCN SONATA BIS 6 scientific project:**

**“Anionic, cationic and mesoionic analogues of N-heterocyclic carbenes in homogenous catalysis”**

**for positions:**

**PhD student (1)**

**We offer:**

- **an interesting topic and a state-of-art computational laboratory in the newly-build Centre of New Technologies**
- **PhD student stipend: 3000 PLN / month available for approximately 4 years**

**We're looking for:**

- **an enthusiastic person ready to engage in serious science**
- **with very good knowledge of English**
- **with good understanding of computational chemistry and organic/organometallic chemistry**

**The recruitment procedure will take place in November 2017. We are planning to start the project around 11.2017.**

Candidates should send the CV (with the following line added: „I hereby give consent for my personal data included in my application to be processed for the purposes of the recruitment process under the Personal Data Protection Act as of 29 August 1997, consolidated text: Journal of Laws 2016, item 922 as amended.”), a list of all marks obtained during undergraduate courses and contact information of MSc/BSc advisor to:
