

2 POSITIONS FOR UNDERGRADUATE STUDENTS

The Laboratory of Bioinformatics and Systems Biology at the Centre of New Technologies (University of Warsaw), headed by prof. Krzysztof Ginalski, invites applications for **undergraduate students**. Positions will be available immediately and funded by the National Science Centre, Poland within SONATA grant “**Genome-wide studies of DNA double-strand breaks in *Saccharomyces cerevisiae***”.

Candidate's profile:

- Undergraduate student of biology, biochemistry, biotechnology or biophysics
- Previous experience in molecular biology or biochemistry lab will be an advantage

Candidates should be highly motivated, reliable, scrupulous, organized and trustworthy.

We offer:

- Salary (monthly): 1 000 PLN

The successful candidates will work with the newest technologies of next generation sequencing (HiSeq4000, HiSeq2500, MiSeq) and single cell genomics within interdisciplinary research team. They will have the opportunity to conduct the research for Master degree thesis and continue their work during PhD studies.

Deadline for applications: February 26, 2018

Applications will be accepted until the positions are filled.

If the winner of the competition resigns from signing the contract, we reserve the right to choose the next person from the ranking list.

Please send your CV, grade transcript, a detailed description of previous experience and the contact details of one referee to lbsb@cent.uw.edu.pl. Selected candidates will be invited for the interview.

CV should include the clause “In accordance with the personal data protection act from the 29th of August 1997, I hereby agree to process and to store my personal data by the Institution for recruitment purposes”.
