JOB OFFER

Position in the project:	Young doctor
Scientific discipline:	Molecular and Cell Biology of Stem Cells
Job type (employment contract/stipend):	Full time position/employment contract
Number of job offers:	2
Remuneration/month:	expected gross salary at 9 300 PLN /month (health insurance and social benefits included)
Position starts on:	1st August 2018
Maximum period of contract/stipend agreement:	36 months
Institution:	Centre of New Technologies (CeNT), The University of Warsaw
Project leader:	Krzysztof Kobiela M.D., Ph.D.
Project title:	<p>Reciprocal interaction between hair follicle Stem Cells and surrounding niche during skin and hair regeneration</p> <p><i>Project is carried out within the TEAM programme of the Foundation for Polish Science</i></p>
Project description:	<p>The main goal of the project is to investigate the behavior of hair follicle stem cells (hfSCs) during stem cells (SCs) quiescence and activation. Currently, my laboratory shed light on how a competitive balance of BMP/WNT signaling regulate hfSCs but there is a gap in our scientific knowledge regarding how BMP/WNT signaling integrate the regulation of different molecular networks in hfSCs during hair cycle. Our long term objective is to understand how this regenerative hair cycling behavior is regulated at the molecular level, and how reciprocal interaction between hfSCs and surrounding niche changes during hair homeostasis and regeneration.</p>
Key responsibilities include:	<ol style="list-style-type: none">1. A young doctor will work with genetically modified mice (to obtain a required genetic background with mice crossing, inducing gene activation or ablation in vivo, mice genotyping, and analyzing of mouse phenotypes.2. Postdoc will be involved in cells isolation from various tissues predominantly from skin of genetically modified mice.3. Sorting of stem cells by FACS and preparation of samples for RNA-seq or Chip-seq analysis as well as stem cells culture in vitro4. Tissue analysis by immunofluorescent /immunohistochemistry staining and /or in situ hybridization with use of microscope techniques

Profile of candidates/requirements:	<ol style="list-style-type: none"> 1. Ph.D. in Biology, Biotechnology or Medicine 2. Good knowledge of English, 3. Knowledge of Adobe Photoshop, Adobe Illustrator, PowerPoint 4. Team work skills, 5. Experience in laboratory work (gel electrophoresis, PCR, RT-PCR, q-PCR, DNA/RNA/Protein extraction/purification, DNA cloning, western blot, cryo- and paraffin- sectionings, cell culture, FACS sorting, immunofluorescent /immunohistochemistry staining, in situ hybridization, mouse breeding/numbering/genotyping, some basic mouse surgeries, microscope techniques), RNA-seq, Chip-seq library preparation for NGS.
Required documents:	<ol style="list-style-type: none"> 1. Curriculum Vitae (CV) 2. Cover letter, describing Candidate motivation 3. PhD certificate (PhD defended during the years 2011-2017) 4. One or more letters of recommendation from a scientist who is familiar with the Candidate (submitted directly to email address below) 5. Information on scientific publications, scholarships, prizes and awards or other relevant documents demonstrating the excellence of Candidate 6. A list of attended conferences with titles and authors of presentations 7. A personal data processing agreement
We offer:	The employment as full-time young doctoral position with monthly salary approximately 9 300 PLN (brutto). The initial appointment is one-year with possibility of renewal up to 36 months. The appointment should start on 1st of August 2018.
Please submit the following documents to:	k.kobiela@cent.uw.edu.pl (entitle your email "Team Young doctor").
Application deadline:	30th June 2018
For more details about the position please visit (website/webpage address):	http://www.cent.uw.edu.pl
Euraxess job/stipend offer (in case of PhD and postdoc positions):	https://www.euraxess.pl/jobs

Please include in your offer:

"I hereby give consent for my personal data included in my application to be processed for the purposes of the recruitment process under the Personal Data Protection Act as of 29 August 1997, consolidated text: Journal of Laws 2016, item 922 as amended."
